# letters to the editor...

Sir:

I am interested in UFO, Bigfoot, Monsters, Oddities, Abnormalities, Psychic Phenomena, Prehistoric Survivals, etc, and think that some of them may be interconnected in some way. For instance, Canadian researchers have produced 4-foot high chickens by ensonifying embryos for a brief period. I would like to correspond with anyone else interested in any aspect of any of these subjects.

If enough people like the idea, I could put out a mimeo letterzine so all could read the letters and comment. It would cost only letter and postage each issue.

Finally, I would like to buy a small piece of land, 10 acres would be enough, in the northern California monster country, as near to the center of occurrences as possible, and build a small cabin and stay there until I get pictures and proof. I have a few things, but not enough. Any friends would be welcome to come and camp there as long as they need while they look. If anyone knows of such a place, or can suggest where it should be, please write.

Inquisitively,

## **UFOs**

**prophets and scientists  
believe in them —  
do you?**

by Joseph Fernscher  
*Spectrum Staff Reporter*

Mankind has been perplexed by unidentified flying objects in the skies since the time of the ancient prophets. What these UFOs are, where they come from, and why they are there, can only be speculated upon by man. There do exist, however, many people who believe that these vehicles and their occupants, if any, are from another planetary system that is far ahead of man and his technological advances.

One person who has a somewhat active interest in the investigation of UFO sightings is James Sipprell. A local elitist in the group of concerned citizens, Mr. Sipprell is a resident of Tonawanda, New York, and is a highly active member of the National Investigations Committee on Aerial Phenomenon (NICAP).

Other local citizens on NICAP Subcommittee Three are James Reed; Ernst Both, Director of Astronomy at the Buffalo Museum of Science; Robert Manning; D. Ferietto and Jeffrey Gow, a graduate student in the Psychology department. This subcommittee was formed in January, 1966.

### **Investigating groups**

NICAP is a non-profit organization which is composed of members from every branch of science and engineering, plus many from the fields of education, law enforcement, business and the military.

The National Investigations Committee on Aerial Phenomenon was formed in 1958 by Richard Hall and Major Donald Keyhoe. The headquarters for NICAP is located at 1536 Connecticut Ave., Washington, D.C. NICAP is not a "cultist" organization like some which claim contacts with beings from other worlds.

Of course NICAP is not the only organization in the U.S. and the world which is concerned with the investigative approach to the UFO mystery, but it is the only full-time organization which is engaged in UFO investigation.

## From Zechariah to LeRoy, Kansas

In another part of the Bible we see another such incident depicted. In Zechariah we find the following: "Then I lifted up mine eyes and looked and beheld a flying role . . . the length thereof 20 cubits and the breadth 10 cubits (or about 30 by 15 feet)." (Those interested in further investigations into biblical sightings should obtain the book, *The UFO and the Bible* by Morris Jesup.)

Not until the 19th century was another wave of UFO sightings reported. One of the most spectacular sightings of this time came from the United States. On April 21, 1897, a wealthy farmer, Alexander Hamilton of LeRoy, Kansas, saw what he described as a "demon ship" which carried off one of his cattle.

Hamilton described the incident as follows: "It consisted of a great cigar-shaped portion, about 300 feet in length with a carriage underneath. The carriage was made of glass or some other transparent substance. It was shining brightly from within and the insides were quite visible. Inside were six of the strangest and the most horrible beings I ever saw. They were jabbering together in a tongue that was foreign to me.

### They even steal cows

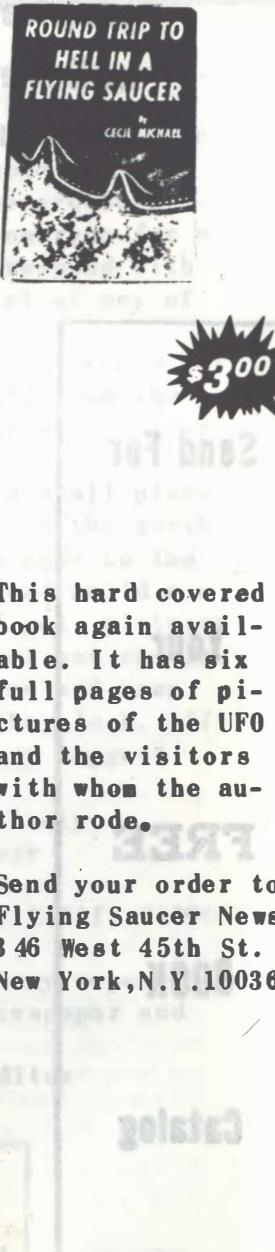

"Every part of the ship which wasn't transparent was a dark reddish color. We stood as if paralyzed and were finally distracted when they turned a light on us. All of a sudden after seeing us they turned on some unknown power and a huge turbine wheel began to spin slowly below the craft which rose in the air with a buzzing noise. When it was 300 feet above us it seemed to pause and hover above a two-year old heifer which was firmly tied to a fence. When we went to the heifer we found around its neck a red rope, and all attempts made to remove the rope were fruitless and when the craft began to rise, heifer and all moved off into the northwest. Later we found the hide, legs, and head of the cow which was positively identified as my own because of a brand mark. The hide was found four miles away."

Mr. Hamilton proved his veracity and honesty by having some 30 prominent people of his community sign an affidavit that stated his account of the incident was correct.

From the early 1900's to 1946 there was a relatively dead period in which there were only 100 UFO's sighted and reported.

### Some statistics

Before we continue, it might be interesting to look at some numerical figures

concerning the UFO phenomenon. The U.S. Air Force released the following data for UFOs sighted between 1960 and 1966:

Year	Total	Sightings	Unidentified
1960	557	14	
1961	591	13	
1962	474	15	
1963	399	14	
1964	562	19	
1965	886	16	
1966	856	13	
	4325	104	

Since 1947 there have been a total of 11,000 UFOs sighted in the skies over the earth. Of these, 10,344 have explanations and 659 remain unidentified. The 10,344 that have been explained were attributed to such things as astronomical phenomena, aircraft, balloons, satellites, natural phenomena, etc.

### 1958 was a very good year

Two years which stand out in UFO sightings are 1952 and 1957. In 1952 a total of 1,501 UFOs were sighted and of these 1,198 were explained and 303 were left unexplained. In 1957 a total of 1,006 UFOs were reported and of these 992 were identified and 14 were not.

Historically UFOs became a national concern on June 24, 1947. It was on this day that an experienced pilot and representative of a fire-control equipment firm in Boise, Idaho saw the first of the "modern" flying saucers.

Kenneth Arnold was flying his plane in the area around Mt. Ranier, Washington. He was at an altitude of about 14,000 feet and visibility was unlimited. After awhile he noticed a bright flash and when he looked to his left he saw a chain of peculiar looking objects flying in the direction of Mt. Ranier at an altitude of 9500 feet. Taking note of the peculiarity of these objects, he calculated that they were travelling at a speed in excess of 1500 miles per hour.

### Air Force Whitewash

The Air Force says that the Arnold case was one that they have not yet been able to explain. The official theory is that the objects he saw were nothing but mirages. Arnold, in an interview after his sighting, said that the objects "flew like a saucer would if you skipped it

across the water." Thus UFOs were given the misleading label of "flying saucers."

There are literally thousands of outstanding UFO reports that I could include in this article, but what is of equal interest is the UFO investigation activity in the local area.

James Sipprell, mentioned before, is a local citizen who has become the Regional Coordinator for NICAP. He has had a great deal of experience and dealings with members of the scientific community who are of the opinion that UFOs are real and do exist. Whether they are from outer space or not, he could not say. It is still unknown. Hopes which had been raised at the formation of the Condon Commission (a group that was given a large sum of money to investigate UFOs), that an answer to this question might be found, seem to have dimmed as a result of the serious inter-group fighting among the scientists.

### Are they holding back the facts?

One of the more recent events in the field of UFO investigation was the First Annual UFO Symposium held in Chippewa, Ontario. It was here that Mr. Sipprell and 40 highly respected members of the scientific community met and had informal discussions on the subject of UFOs.

The most important thing to come out of this Symposium was the fact that for the first time the press and other medias were allowed to see 13 reports from Project Bluebook and Project Grudge, a secret research group.

In a closing statement Mr. Sipprell said that it was his personal opinion that there is another secret organization somewhat like the CIA, which has a strong financial backing and is going about trying to suppress the proper investigation of UFO reports. This, he feels, is being done by men disguised as NICAP officials and Air Force personnel.

In conclusion, I say that with the increase in the serious coverage of the mixed medias concerning the UFO, it will come to pass that within the next five or six years there is going to be a major breakthrough in UFO research. We just might come up with some very concrete proof of their existence.

The elder-statesman of UFO investigative groups in the U.S. is an organization known as APRO (Aerial Phenomenon Research Organization). APRO was formed in 1952 and has its headquarters in Tucson, Ariz. It is headed by Leslie J. Lorenzen and Coral E. Lorenzen, both authors of numerous publications concerning UFOs. APRO takes a conservative look at the UFO and feels that all the facts indicate that this phenomenon is of an interplanetary nature.

Another American organization is one which, although somewhat less conservative than APRO, does prove that there are many more people concerned about this mystery than is commonly believed. This group is known as SAUCERS (Saucer and Unexplained Celestial Events Research Society). SAUCERS is located in Fort Lee, N.J., and New York City. It was established back in 1954 and claims to have a membership of close to 7000. SAUCERS' members believe that because of the overwhelming amount of evidence presented, the UFO is real and probably comes from the planet Mars.

## Some bad publicity

Besides the groups mentioned above, there are other groups who claim to have had some special contact with aliens from other galaxies and profit by their experiences in forming conventions and societies that flourish on the sale of outer space memorabilia. It is these groups and the people who run them that have made the investigation and consideration of UFOs a frequent subject of ridicule, and its devotees candidates for scorn.

The UFO mystery is a perplexing one, full of arguments pro and con. But the very fact that it is argued shows that many people consider it a possibility that man is not alone in this vast universe; that he is being examined or surveyed by some race of intelligent beings with enough technological development to invent vastly superior modes of vehicular travel through the cosmic voids.

## Even the prophets saw them

The actual beginnings of the UFO mystery go back to the Bible. If one reads the Bible carefully, he will come upon several instances in which a UFO sighting is depicted in extraordinary detail. Some people believe that the sightings reported in the Bible should not be considered because of their antiquity and ambiguity of defining terms. I believe that the older the report, the more reliable the information, for in ancient times they did not know what such things as airplanes, swamp gas, or electricity were—these being the main explanations of modern UFO sightings. This lack of technological understanding tends to lend more credence to these reports.

Two such sightings occur in the King James version of the Bible. According to the Bible, sometime in 593 B.C. the prophet Ezekiel described a machine which came down from the sky and landed near the Chebar River in Chaldea (now a region of Iraq).

## UFOs according to Ezekiel

Ezekiel described the strange incident as follows: "And I looked, and, behold, a whirlwind came out of the north, a great cloud, and a fire unfolding itself, and a brightness was about it, and out of the midst thereof as the color of amber, out of the midst of fire."

"Also out of the midst thereof came the likeness of four living creatures . . . And everyone had four faces, and everyone had four wings. And their feet were straight feet; and the sole of their feet was like the sole of a calf's foot: and they sparkled like the color of burnished brass. And they had the hands of man under their wings on their four sides; and they four had their faces and their wings . . . As for the likeness of their faces, they four had the face of a man, and the face of a lion, on the right side; and they four had the face of an ox on the left side; they four also had the face of an eagle."

Ezekiel then went on to describe the ship and its actions. He was then taken on board the ship and transported to the Tel Abid Mountains. There he remained mute for seven days . . .

French mathematician and author Jacques Vallee said about this incident: "The incident is so objectively depicted that it could hardly be considered a tale to impress superstitious listeners."

**A LOOK AT BOOKS**

—by Michael Lindner

**OPERATION TROJAN HORSE**, by John A. Keel; G.P. Putnam's Sons, 1970; 320 pages; index; bibliography; \$6.95.

It has been said that trying to keep up with John Keel's latest theories is like chasing your shadow with the sun at your back: you're always one step behind. In spite of this, or, perhaps, because of it, Keel is one of today's most widely discussed and controversial UFO investigators. After many delays and false starts, his long-awaited book has finally been published.

After starting full-time UFO research and investigation in 1966, Keel gradually came to realize that the popular extraterrestrial theory could not account for all facets of the enigma. Many of the patterns used by the ufonauts today can be seen to have been used in earlier flaps: 1897, 1909, 1913, 1934, and others. The previously overlooked mass of data known as "ground level activities" was particularly revealing. These manifestations include poltergeist activity in flap areas, MIB-psychic harassment of UFO researchers and witnesses, dead and mutilated animals near areas of intense UFO activity, and the contactee phenomenon.

After intensive field investigation and research, Keel came to these conclusions:

UFOs are not extraterrestrial spacecraft; they are merely a small part of a much larger phenomenon that has been with us for ages.

The seemingly metallic UFOs are only temporary transmogrifications of energy.

A large part of UFO experience is confabulatory.

The contactees are telling the "truth" as it is told to them by the ufonauts, who are the real liars.

The controlling force behind all of these machinations are the "ultraterrestrials", or "elementals", who are familiar with all facets of our lives and thinking processes, and who take advantage of this knowledge for their own purposes.

The old religious framework of these various manifestations has merely been replaced with a new extraterrestrial one by the ultraterrestrials. The phenomenon itself has not changed.

"Heresy?" Granted. But a logical heresy, one worthy of serious consideration.

Naturally, there is much, much more in this 320 page book which cannot be dealt with in this brief review. I strongly recommend **OPERATION TROJAN HORSE**

# REPORTS OF UNIDENTIFIED FLYING OBJECTS

Bahia Blanca, Brazil June 4, 1969

For four hours 10 P.M. and 2 A.M. in the district of Villa Mitre anybody who walked could see a strange object which emitted red, yellow and green signals and hung several miles high in the sky.

At 2 A.M. the object began moving towards the south. No airplane nor weather balloon was in the air at that time. The police confirmed the existence of the U F O.

Scranton, Pa., March 21, 1970

There were four patrolmen present with this sighting and which involved different sections of the city. Pat. Joseph Harte. He observed the object as round and orange in color as he viewed it from his beat on Adams Ave., the 200 block. Sgt. Charles Reins & Pat. Al Sames driving their patrol car said they saw it as well as Pat. R. Heier. All agreed it could out manouver any of our fighter planes.

## More Flying Objects Reported

Barberton, Ohio March 20, 1970

Leslie Riddell, age 23. Owns and operates with his wife Sir Oliver's Restaurant on 31 Street S.W. of this city.

He heard from his second floor apartment sounds rather peculiar. Once outside the house the sounds became stronger. Beyond his garage, over an open field and from a distance of 100 yards was a U F O. The object was described as about 8 feet high and solid and about 15 feet across the top.

He watched the object for 10 minutes but failed to call a witness for fear it would be gone when he returned.

Riddell, reported the incident to the police but was advised that the Air Force had closed its investigation. Credit...Skylook, Box 129, Stover, Mo.

Morgantown, W. Va. May 1, 1970

Several residents of this town saw a UFO time 20:55 Sat. They described it as a long form, had bright light at one end with two dimmer lights on other end.

Tom Basnett, Air Force serviceman saw the U F O. Said the object " seemed to be on course same as any plane.

read, and it is an important book. I believe that while Keel's theories may not be 100% correct on every point, they are closer to the truth than any others so far advanced. Unfortunately, while a seven dollar price-tag is not at all excessive in our inflationary economy, it will discourage many who should read OTH from buying a copy. This reviewer hopes OPERATION TROJAN HORSE will be speedily re-issued in a paperback edition.

\*\*\*\*\*  
**STRANGE CREATURES FROM TIME AND SPACE**, by John A. Keel; Fawcett Gold Medal, 1970; 288 pages; index; 75%.

Anyone who has read a Frank Edwards volume knows that there are some mighty strange beasties skulking around on Earth, but I doubt that very many of those readers are aware of the bewildering variety of these creatures. In STRANGE CREATURES, John A. Keel has given us a guidebook to the hazy world of "monsterology." Keel covers a wide range of subject matter (perhaps too much for one book) including Bigfoot, Mothman, human oddities, vampires, sea and lake creatures, angels and devils, ghostlike "bedroom invaders", UFO occupants, and the seemingly parapsychical apparitions of the Mount Misery ilk.

Some interesting points are brought out. The author notes that often when a UFO flap is underway in a rural locale, livestock are mysteriously disappearing a few miles away from the area of the most intense saucer activity. Could the UFOs be nothing more than decoys to draw attention from the vanishing animals? Keel feels this is the most reasonable explanation. Poltergeists are often active in a flap area, and continue their antics long after the UFO wave has subsided. Again, coincidence seems to be stretched a little too far, and Keel concludes, on the basis of this and much other data, that all of these phenomena--UFO, Fortean, religious, parapsychological--are interrelated and controlled by one central source. Much of the evidence does, indeed, seem to support the impressive, though controversial, theories spelled out in this book and in OPERATION TROJAN HORSE.

As in any work of large scope, CREATURES contains some errors. Most of these, however, are very minor, and do not detract from the book's general credibility. For example, the year of the "C.A.V." case, reported in UFOs OVER THE AMERICAS, is given as 1947, instead of the correct 1949. This reviewer was amused to see that the "About the Author" page seemed to contain more outright errors and dubious statements than the entire text of the book.

On the negative side, there are no photos, illustrations, or maps. The Patterson Bigfoot film and the Mount Misery creature photo, for example, are discussed fully in the text. Their inclusion

in a photo section would have been of considerable interest to most readers. There are a number of such "monster" photos, and the failure to include at least a few of them is puzzling. I feel this is a serious oversight.

To sum up, this is one of the most absorbing Fortean books I've seen this year. Keel's fluid style and sardonic humor make for extremely interesting reading. Carefully indexed, and well documented, this book will be invaluable to researchers. And it is just the type of book one might use to introduce a friend to the fascinating world of Forteana. But a word of advice: while reading this book, you might want to stop once in a while to murmur this medieval English prayer:

"From ghoulies and ghosties,  
And long-legged beasties,  
And things that go bump i' the night,  
Good Lord, deliver us."

-----APROPPOS PARAGRAPH-----

"No model hypothesis is sacred. There is no inherent truth in any conceptual model. Any conceptual model is subject to revision if it fails at any time to include all available evidence successfully and without equivocation. If, at any time now or in the future, new evidence is secured that fails to fit into any previous model, then that model must be revised or abandoned. Revision of a cherished model may be fraught with anguish, and because of this, be long in coming. However, neither anguish nor delay will stay revision."
